

CommandKey AI

VETERAN-OWNED · REFER A BUSINESS OWNER

Know an owner buried in office work?

Send them our way. CommandKey sets up an AI agent on their own computer that takes the email, follow-ups and paperwork off their plate.

WHAT IT DOES FOR THEM

Handles the inbox

Sorts email, drafts replies in their voice and chases the follow-ups that slip.

Preps their day

A morning brief: what's on the calendar, what's waiting on them, what's due.

They stay in charge

Anything that sends, pays or deletes waits for their OK. With Care, they approve from their phone.

Their data stays theirs

It runs on their computer, in their own accounts. We don't host it and we never log in.

You both get a free month of Care.

When the business you refer goes live, you each get a free month of the Care Package. Their free Care runs 60 days instead of the usual 30.

HOW TO REFER SOMEONE

- 1 Send them this page, or just the link below.
- 2 They take the free 5-minute week audit and get a one-page plan back within 24 hours. No cost, no contract.
- 3 Where the form asks "Did someone refer you?", they put **your name**.
